Profile Info

I have 2 years of working experience in UI/UX design. I have designed the intranet system, main website UI design, and graphic design for the company. During the design period, I will communicate with the client, make a design that satisfies the client, and bring the best user experience and design to the client. Recently, I am also learning more about design.

Work Experience

UI/UX Designer | Mindcluster Limited | 2022/02-2023/05

- Worked on a e-commerce marketplace and a ERP system for billboard advertising for a mass transit network.
- Collaborated with stakeholders and project manager to gather and evaluate user requirements, developed user flows and wireframes illustrating the behaviours of the platforms.
- Created eye-catching visual, UI, and UX designs for webapps that resulted in an intuitive user experience.
- Designed the company's branding including its logo, pitch decks and various print materials from concept through completion.

UI/UX Designer | Quantr Limited | 2020/10-2022/02

- Produced both commerce and non-commerce creative website layouts and content for the use of clients
- Prepared wireframes, illustrations and rough sketches of material, discussing them with clients, and making necessary changes
- Created designs, concepts and samples layout, based on knowledge of layout and esthetic design concepts
- Designed brochures and booklets for company presentations
